

SOCIAL AND LIFE SKILLS – LESSONS FOR LIFE

A unique programme of support is being offered by the SEN department as an extension of 'pastoral care' in the school; to help students overcome a range of emotions that they may experience during their school journey. These Social and Life Skills – Lessons for Life compliment the 'Skills for Life' ethos of the Trust. This distinctive programme helps students to cope and manage their feelings and emotions. It helps build self-awareness, confidence and personal growth! The objective is to encourage a developing change towards progression for a more optimistic well-being.

Head of SENCO - Miss D Dunlop
